

Course title	<b>Fire Door Awareness (QFD071)</b>
Duration	2 Hours (questions dependent)
Aim	To provide enhanced awareness of issues impacting on the effectiveness and management of fire door sets to assist staff conducting visual checks.

#### Objectives

- Provide a definition of a fire door from current guidance.
- Identify current guidance and Legislation.
- Explain the role of a fire door in Fire Compartmentation.
- Highlight relationship with Regulation 38 of Building Regs.
- Discuss requirement for inspection and maintenance including value of a checklist.
- Discuss relevant good/bad case studies.
- Identify and discuss features of a fire door set.
- Introduce the importance of resident engagement.

This presentation provides a basic level of knowledge and awareness for staff who may be expected to conduct visual checks of fire doors. It discusses key areas surrounding fire doors in premises with an added focus on residential flats and revisions to guidance and Legislation post Grenfell and Hackitt review findings.
